### What does a water sports resort offer?

The concept of a water sports resort is similar to that of a ski resort, but adapted to water sports and physically located in a coastal tourist destination. They offer packages that include courses and water sports activities, the equipment required for each one, and accommodation for the days you will be carrying out these activities.

They also offer all-inclusive packages that include accommodation plus water sports activities such as sailing, canoeing, diving or equipment rental, among other things, whilst also offering other complementary sports and cultural activities, restaurants, shopping and nightlife alternatives, always placing the emphasis on quality in the provision of all these services.
